Abena and human contactee Phil Coseski.

"I'm the original Orionifo of Youtube's "Orion Contactee Channel. I had documented verifiable contact with an Orion humanoid race called "Oxicarian" from 2007 thru 2012 and more specifically with an Orion female named "Abena" in the Orange county region of New York State near UFO hot spot, Pine Bush. Abena let me film her triangular ship on many occasions and performed a few amazing flight demos. In our contacts she taught me many interesting and extensive things about her race, their ship's and their advanced technologies. The aliens have a very large underground base under Orange County NY which extends for many square miles and is many miles deep underground so no humans could ever find it. I was approached by the ET's because they told me I was a hybrid of their genetics due to an ancient past interbreeding on my paternal (Dad's) side. They also wanted me to convey their presence and reveal their identity". Nudge Squidfish is also a Abena's contactee. In 2013 Squid enter into a breeding program with Abena. They are still together in 2024. They have 6 children.
